

SAVE THE DATES

The Mellichamp Academic Initiative in Sustainability will be sponsoring the following speakers in Winter and Spring quarters. Please mark your calendars and plan to attend these seminars. For additional information visit: <http://sustech.ucsb.edu/>

Guest Speaker	Title	Institution	Title of talk	Date	Time	Location	Host
Johannes Urpelainen	Associate Professor Political Science	Columbia University	Universal Electricity Access for India: A Global Challenge of Sustainable Development	1/31/17	4:00	Bren 1424	Sarah Anderson
Brandi Cossairt	Assistant Professor Chemistry	University of Washington	From Multimetallic Molecular Catalysts to Nanoscale Phosphides: A Tale of Atomically Precise Synthesis	2/10/17	4:00	PSBN 4606	Trevor Hayton
Matthias Beller	Director, Leibniz-Institute for Catalysis	University of Rostock, Germany	Be Green! Sustainable Catalysis for (Practical) Organic Synthesis	3/2/17	4:00	ESB 2001	Gabriel Ménard
Ronghao Jin	Professor Chemistry	Carnegie Mellon University	Atomically Precise Gold Nanoparticles: Fundamentals and Opportunities	3/15/17	4:00	Chem 1171	Trevor Hayton
Chao-Jun Li	Professor Chemistry	McGill University	Exploration of New Chemical Reactivities for Synthetic Efficiency	5/3/17	4:00	Chem 1171	Liming Zhang
